CALCULANDO O VOLUME

A fórmula para obter o volume de um prisma retangular é $L \times A \times C$.
Vamos praticar o cálculo do volume com os problemas abaixo.

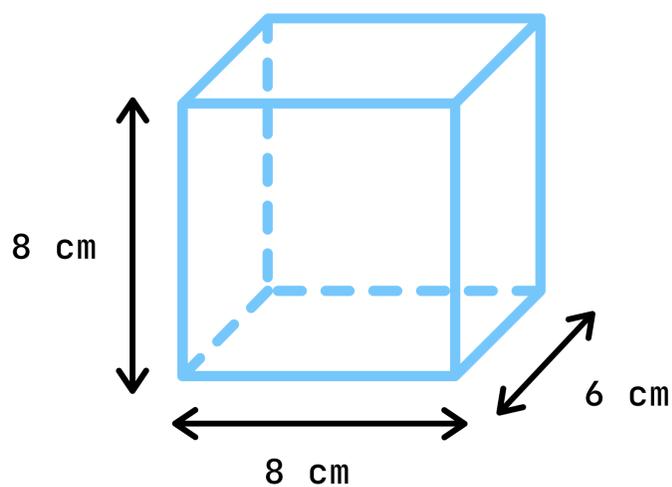

$$\begin{array}{ccc} L & A & C \\ \square & \times & \square \\ \square & \times & \square \end{array}$$

Volume:

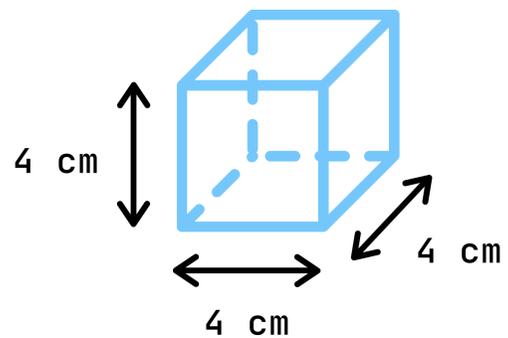

$$\begin{array}{ccc} L & A & C \\ \square & \times & \square \\ \square & \times & \square \end{array}$$

Volume:

$$\begin{array}{ccc} L & A & C \\ \square & \times & \square \\ \square & \times & \square \end{array}$$

Volume:

$$\begin{array}{ccc} L & A & C \\ \square & \times & \square \\ \square & \times & \square \end{array}$$

Volume:
